PROFESSIONAL SUMMARY

Product Manager with 5+ years of experience across product management, analytics, and machine learning. Experienced in translating customer and business problems into product strategy, roadmaps, requirements, MVPs, and measurable outcomes. Combines cross-functional delivery and data-driven decision-making with technical expertise in AI/ML, Agentic AI, Generative AI, and RAG.

CORE STRENGTHS Product Strategy | Discovery | Roadmaps | Product Analytics & KPIs | AI Products | Cross-Functional Delivery

WORK EXPERIENCE

MU SIGMA

Product Manager - [AL] **Jun 2025 - Present**

- **Product Strategy & Prioritization:** Defined product direction and prioritized enterprise AI workflow opportunities for Fortune 50 clients, translating business problems into product opportunities, requirements, and delivery roadmaps.
- **Discovery & Value Alignment:** Led senior-stakeholder discussions to identify workflow pain points, evaluate opportunities, and align solution scope with business goals; contributed to 3x client adoption.
- **Product Architecture & Trade-offs:** Shaped reusable multi-agent solution designs, balancing reliability, latency, cost, and scalability; supported reuse across 8+ client implementations.
- **Metrics & Product Quality:** Established offline and online evaluation methods for solution quality, reliability, latency, and cost to inform product improvement and release readiness.
- **Cross-Functional Leadership:** Aligned a 40+ member cross-functional team across business, AI/ML, data science, and delivery around product priorities, dependencies, and milestones.

VALUE GROUPS

Product Manager **Mar 2024 - May 2025**

- **Product Strategy & Problem Definition:** Identified gaps in SLA KPI visibility and defined a product vision to turn unstructured SLA documents into structured, actionable business intelligence.
- **Product Definition & MVP:** Owned requirements and MVP scope for document parsing, KPI extraction and semantic mapping, Power BI dashboards, and a subsequent RAG chatbot for conversational access to SLA information.
- **Business Intelligence & Reporting:** Enabled visibility into 15 core SLA KPIs and 50+ additional business metrics across 7 document types, reducing manual processing and reporting time by 85%.
- **User Experience & Adoption:** Extended the solution with a RAG-based assistant for natural-language access to SLA information; supported adoption across 500+ teams globally and reduced KPI retrieval time by 90%.

THE TIMES OF INDIA (BCCL)

Officer - ML & Data Analyst **Mar 2023 - Feb 2024**

- **Predictive Modeling & Business Impact:** Developed and optimized predictive models for digital ad targeting using audience and campaign data, improving targeting accuracy by 40% and contributing to an 18% increase in advertiser ROI.
- **Customer & Campaign Insights:** Analyzed audience segments, engagement patterns, and campaign performance to refine targeting strategies and personalized ad recommendations aligned with advertiser objectives.

BYJU'S

Data Analyst **Jul 2021 - Feb 2023**

- **Funnel & Conversion Analytics:** Analyzed sales funnel performance, lead conversion, customer segmentation, and acquisition trends to identify performance gaps and opportunities to improve targeting and conversion efficiency.

CORE SKILLS

Product Strategy & Lifecycle: Product Strategy & Vision; Customer Discovery; Problem Definition; Value Proposition; Product Positioning; Market Opportunity Assessment; Competitive Analysis; Product Roadmapping; OKRs & Goal Setting; Go-to-Market Strategy; Product Launch & Adoption

Product Discovery & Execution: Requirements Gathering; PRD Development; MVP Definition; Feature Prioritization (RICE, MoSCoW); User Stories; Acceptance Criteria; Backlog Management; Agile & Scrum; Risk & Dependency Management; Stakeholder Management

Product Metrics & Growth: Business KPIs; Product Success Criteria; Product Analytics; Experiment Design; A/B Testing; Funnel Analysis; Conversion Optimization; Data-Driven Decision-Making; Business Strategy; Revenue and ROI Analysis

AI & Technical Product Management: AI/ML Product Design; Agentic AI; Multi-Agent Systems; Generative AI; LLMs; RAG; AI Workflow Design; Model Selection; Prompt Engineering; AI Guardrails; Human-in-the-Loop; AI Suitability Assessment; AI Product Lifecycle & Governance

AI Evaluation & Reliability: Offline & Online Evaluation; Model Quality Assessment; Error Analysis; Accuracy Assessment; Observability & Monitoring; Latency & Cost Optimization; Production Reliability; Feedback Loops; Release Readiness

Analytics, Platforms & Tools: Python; SQL; Power BI; Azure OpenAI; Azure AI Document Intelligence; Azure AI Foundry; LangChain; LangGraph; LangSmith; Git; GitLab; OpenAI Codex; Windsurf; Claude Code

Leadership & Collaboration: Cross-Functional Leadership; Stakeholder Alignment; Executive Communication; Delivery Management; Team Leadership; Mentorship; Conflict Resolution

SELECTED PRODUCT WORK

LinkedIn Prospect Research & Personalized Outreach Agent | *Working Prototype*

- Prototyped a B2B workflow that qualifies prospects, researches company context, maps evidence-backed pain points to capabilities, drafts outreach, evaluates message quality, and routes drafts for human review.

CartWise - AI Shopping Advisor | *Product Design Study*

- Defined a consumer shopping-assistance concept around preference capture, grounded product comparisons, recommendation trade-offs, and handling missing product information.

EvalPilot - AI Evaluation & Release Management | *Product Design Study*

- Outlined an evaluation workflow for curated test datasets, version comparison, failure analysis, and release gates to support evidence-based product release decisions.

EDUCATION

M.Tech (Part-Time) | University Visvesvaraya College of Engineering, Bengaluru | Bangalore University

Bachelor of Engineering | East West College of Engineering | Visvesvaraya Technological University
