Portfolio | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Product **Manager with 5+ years of experience building, launching and scaling products across** B2B enterprise and consumer domains. Experienced in **0→1 product development,** translating ambiguous business problems and customer needs into **product vision, strategy, roadmaps and scalable solutions** for **global clients** including **Mars, Dell and Walmart.** Drives the **end-to-end product lifecycle-from** discovery, opportunity assessment and MVP definition to prioritisation, cross-functional execution, launch and performance optimisation. **Combines business acumen, product analytics and technical understanding** to deliver measurable outcomes in growth, adoption, operational efficiency and customer experience. Experienced in **AI-enabled products, enterprise workflow automation and product quality evaluation.**

CORE STRENGTHS

0→1 Product Development | Product Strategy & Vision | Product Discovery | Roadmap Ownership | MVP Definition & Prioritisation | Product Execution & Launch | Product Analytics & KPIs | Business Growth & Adoption | Stakeholder Management | Cross-Functional Leadership

WORK EXPERIENCE

MU SIGMA

Apprentice Leader (Product Manager) | June 2025 - September 2026

- **Identified enterprise business opportunities** and **defined product vision, strategy and roadmaps** for workflow automation solutions, translating complex client problems into scalable product capabilities for **Dell and Walmart.**
- Owned **product discovery, stakeholder alignment, MVP scope and prioritisation,** translating customer needs into **PRDs, user journeys, functional requirements** and **product backlogs** aligned with business value and technical feasibility.
- Led **solution design, product launches and cross-functional execution across 40+ team members,** scaling reusable AI-powered workflows across **8+ implementations;reduced** implementation time by **50%** and LLM costs by **40%,** achieving **92% task success.**
- Contributed to client engagements exceeding **US$1M in commercial value,** delivering **80% reduction in manual effort, 40% cost reduction, 220% growth in monthly active users** and workflow accuracy improvement from **78% to 92%.**

VALUE GROUPS

Product Manager | March 2024 - May 2025

- Identified and validated an **enterprise product opportunity** at **Mars Incorporated,** addressing gaps in SLA visibility, manual KPI tracking and vendor benchmarking; defined the **product vision** for an SLA Intelligence platform.
- Owned **product discovery, solution definition, 0→1 MVP scope, roadmap and prioritisation;** translated business requirements into an integrated workflow and delivered the initial MVP in **2.5 months across 3 document types.**
- Enabled visibility into **15 core SLA KPIs and 50+ business metrics across 7 document types,** achieving **92% extraction accuracy** and reducing document processing time from **1.5 hours to 2.5 minutes per document.**
- Reduced manual SLA processing and reporting effort by **85%** and KPI retrieval time by 90%, supporting adoption across **120+ teams globally.** The client showcased the solution at its **international forum** and publicly recognised the team for its differentiated approach and **on-time delivery** despite client-side AI and infrastructure provisioning delays.

THE TIMES OF INDIA (BCCL)

Officer (Product Manager) | March 2023 - February 2024

- Contributed to **product discovery and requirements definition** for an advertising analytics dashboard, enabling internal teams to use campaign and audience insights to develop **data-driven advertising strategies** for clients.
- Defined **product requirements for an audience recommendation engine,** translating audience insights into data-driven recommendations to support campaign targeting.
- Coordinated **product development and UAT** across business, data and technology teams, aligning requirements and validating product functionality.
- Contributed to a **6% increase in campaign engagement,** alongside repeat campaigns and revenue growth.

BYJU'S

Associate Product Manager | July 2021 - February 2023

- Supported product improvements to the **K-3 video-based learning experience,** focusing on learner engagement and learning time.
- Contributed to initiatives associated with a **7% increase in trial-period conversion** and a **3% increase in active learners.**
- Supported product improvements associated with a **2% improvement in assessment outcomes.**
